

Penquis Valley JMG Chronicle

Carl Wilson, Specialist

September 2005

Classroom Activities

We finished our person project, were they had to create a person who could hold the job of Communications Director for Kaplan University. They needed to create this person's life from high school graduation to now based on a minimum of eight years of experience in or from a related field. To complete the assignment I needed a cover letter, resume, application, social security number drivers license, birth certificate, three letters of recommendation (optional) and a brief biography of their person with a statement of why they should be hired (optional). The first year class won they had all their dates in order and they have the leadership of Nycole Carey.

Career Association Activities

We have filled our last officer spot by making a change and adding two people to the mix Crystal Weston who is capable of anything will be an alternate and Zach Beals is now the Coordinator of Career Development. We have come up with some great fundraising ideas but we won't tell yet. I&I plans are moving along nicely. We may even have a professional photographer there. All are welcome to attend. I do ask that each student bring at least one person but some don't have anyone so please come and support our students. October 19th 6:00pm at the Milo Town Hall.

Service Learning/ Upcoming Events

We hope to be involved with the weatherizing project in our area as well as helping out with the Milo Daycare Halloween party and Brownville Rec's Haunted Hayride.

Employer Marketing

Sgt. Clinton Peebles came to the class and spoke about the air force and his experiences and in that time he got to experience all that our high school and JMG have to offer. We will also be fundraising for the 100-mile dog sled race to be held from Greenville to Brownville and back again along the Snow sled trails. Terry Knowles is our contact and it will be our second year helping out but in a more important capacity.

Follow up
