## Bath Salts, What You Need To Know

What are they ?

What do they do ?

How do I recognize when they are being used ?

What do I do when I suspect they are being used ?

~~~~~

Forum is being held at Foxcroft Academy, 975 West Main Street, Dover-Foxcroft  
on Wednesday, September 21, from 6:30pm to 7:30pm

### Presenters will include:

David McDermott, MD, MPH, Director of the Emergency Department at Mayo Regional Hospital in Dover-Foxcroft. He will talk briefly on the experience locally with bath salt exposure as seen in the Emergency Department and by our local EMS services.

Anthony T. Ng, MD FAPA, Medical Director, Psychiatric Emergency Services at The Acadia Hospital. Dr. Ng is a nationally recognized expert in psychiatric responses to disasters and traumatic events and has taken a keen interest in the impact of Bath Salts on individuals and communities.

Maine DEA Agent Chris Gardner: Special Agent Chris Gardner from Maine Drug Enforcement Agency will speak to the problem that bath salts are creating for law enforcement. Specifically what they are, effects on people, where it comes from, what it looks like, and what local law enforcement is seeing for trends.

### Questions & Answers
