One of the reasons for me to open this Shoppe, is to provide a place to those who have a talent of making homemade craft items. Although a lot of the vendors will have created handmade products, we will also have vendors who do not. If you wish to bring product into the Shoppe, that is not homemade, it has to be of good quality, and what will appeal to our customers. If you have an item not sure of, get in touch with me. We would like this to be a Shoppe where you are proud to be able to display your merchandise.
